Elevating Digital Radiographic Table
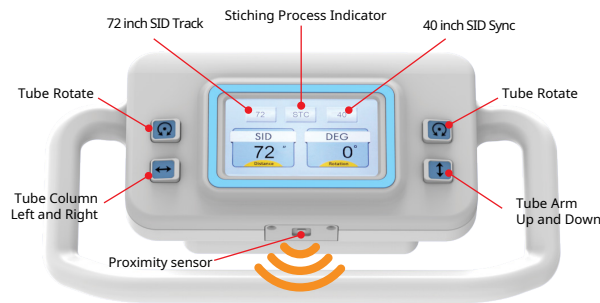

Elevating Table System

The i72w X-ray table is a revolutionary design that provides a 72 inch SID in the horizontal as well as vertical imaging plane. The X-ray table provides silent mechanical movements that help reduce animal stress during a typical study.
Features

- Auto position to 40 and 72 inch
- Minimum table top height: 10.5 inch
- Rounded table corners
- Quiet motor movement

- Tube turns 90 degree (for upright imaging)
- Optical light switch tube head lock release
- Magnetic contact charging Bucky
- Easy foot switch operation
