Service Solutions with Our Customer's Needs in Mind

MXR Imaging is the largest independent medical imaging services organization in the United States.

We offer customizable offerings to healthcare networks, hospitals, and imaging centers as well as Orthopedic, Cardiology, Neurology, Oncology, Podiatry, Chiropractic, and Veterinary practices.

Our goal is to gain an understanding of your clinical needs and align with you as your partner.

Imaging Equipment Management

MXR Imaging was created to assist the multi-site, multi-modality customers with service plans tailored to meet their needs with resources that include:

- Single source dispatch
- Multi-vendor equipment installations and ongoing support
- Technical support across multi-modality equipment
- Robust supply chain including part depot repair facilities
- Preventive maintenance to full service agreements
- Project management for installations and relocations
- Purchase of legacy equipment

One company providing cost effective, high quality imaging equipment, service and solutions for healthcare providers throughout the United States and Canada.

Large Inventory of Quality Parts

Parts are the foundation of responsive service. Through our extensive supply chain, MXR Imaging is able to provide a variety of imaging parts, components, and supplies for CT, MRI, PET/CT, Ultrasound, and General Radiology Imaging equipment. We maintain a large inventory of stocked parts and accessories from many of the original equipment manufacturers including GE, Philips, Siemens, Canon, Konica, and many more. These parts and accessories are ready to ship from our national distribution centers. MXR Imaging's Quality Assurance program is certified to ISO 13485:2016 standard. This means that our parts have been certified to meet OEM specifications prior to shipment.

MXR Service

Multi-Modality Installations & Support

You can depend on MXR for all your imaging service needs.

Expertly Trained Field Engineers

All MXR engineers are extensively trained to work on your imaging equipment.
