

THE
IMAGING
SOLUTIONS COMPANY

Expert Sales and Services For All Your MRI Needs

Selecting a System

MXR provides you with several choices across multiple brands of pre-owned and reconditioned equipment. Our quality MRI systems come with a standard MXR warranty. We can also take your old system in on trade to offset the cost of your new scanner..

Not sure what MRI system to purchase? Our Imaging Specialists can help you decide which MRI system is right for your needs. Through our consultative approach, we can guide you through the decision making process. From a single system purchase, to the build-out of an entire imaging department, we have the resources to assist you every step of the way.

MRI Service Solutions

Service Solutions are tailored to the clinical and economic needs of the facility to include Full Service, Shared Service, PM Agreements and other options. MXR Imaging offers a cost-effective, ISO-13485 certified alternative to the OEM for your MRI service and repair. If your warranty has expired, choosing MXR Service can save you up to 30% on your total cost of MRI system ownership compared to OEMs.

Clinical Applications Training

As part of a comprehensive turn-key solution, clinical applications are routinely included with our Platinum Certified Pre-Owned scanners. We offer applications training for multiple modalities over many different manufacturers. We provide this service throughout the United States and Canada. CEU credits are available for your staff.

The Largest Independent Distributor of Imaging Equipment and Service

MXR Imaging provides you with several choices across multiple brands of reconditioned systems. Our MRI refurbishing process is best-in-class, providing you with a system that matches manufacturer's specifications. Product offerings include 1.5T and 3T magnets both in 60 cm and 70 cm wide-bore configurations. Our field service engineers are highly trained and experienced in servicing Siemens and GE MRI systems.

Mobile Interim Services

MXR's extensive fleet of mobile MRI Systems is available for you to continue serving your patients during the build-out of your imaging suite or while you are upgrading your MRI. We provide a complete, stand-alone unit shipped to your facility for the required period of time to provide uninterrupted patient scanning.

Our Mobile Imaging Trailers are insulated, self-contained units which enables them to operate adjacent to your facility in hot or cold climates. In order to enable a larger working environment, we offer extra-large 12' x 60' coach trailers.

Installation and Relocation

MXR Imaging can efficiently and effectively de-install, transport, and re-install, your MRI units. We collaborate with your architect or project manager to plan necessary construction to achieve your ideal imaging space, including specialized shielding. Every aspect of your imaging project is considered and addressed.

Platinum Certification

The Platinum Certified Pre-owned CT, MRI, PET/CT, and Ultrasound Systems from MXR Imaging will allow you to achieve your imaging objectives with a cost-effective solution. Our Platinum Certified products will maximize the revenue potential of your organization, while lowering your total cost of ownership, and enhancing the clinical outcomes of your patients.

ISO Certified

Magnet Monitoring & Cryogen Support

MXR Vision is our proprietary magnet-monitoring device that comes with the purchase of all Platinum Certified MRI scanners, and is a feature found in our full service agreement offering. It provides you 24/7 monitoring of the critical magnet components and environmental systems; maximizing your uptime and throughput potential.

MXR Imaging provides helium fills, coldhead and compressor replacements, and cryo-refrigeration service agreements.

Parts

MXR Imaging sells pre-owned and reconditioned parts for your Magnetic Resonance unit. Our MRI parts provide you with a high quality, low-cost alternative to the OEM.

Supplies

We are the source for all of your MRI supplies: patient positioning aids, table pads, quality assurance, phantoms and consumable supplies.
