Large Fleet of Short and Long Term Mobile Diagnostic Imaging Solutions

MXR Imaging is dedicated to providing your facility with the highest level of service by offering you the right imaging system the first time. MXR has a large fleet of interim mobile diagnostic imaging solutions that include: MRI, CT, PET/CT and Nuclear Medicine. Our mobile imaging fleet consists of all major manufacturers such as: Siemens, GE, Philips, and Canon.

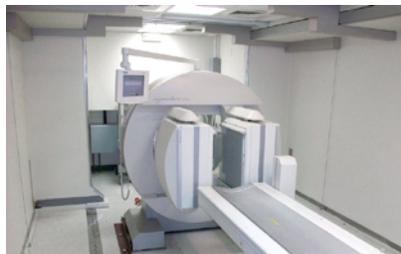

Benefits of Mobile Services

- No need to build out your facility to accommodate the imaging equipment
- Serve patients during construction or renovation
- Serve patients during equipment upgrade & downtime
- Recover quickly from natural disasters
- Reduce patient backlog
- Avoid capital expenditures due to budgetary constraints
- Reduce operating costs while maintaining state-of-the-art capabilities

#1 Mobile Provider in North America

MXR Imaging is the #1 Turn-Key Mobile solutions provider with the largest selection of systems available for short and long term rentals.

Mobile Interim Services

MXR's extensive fleet of mobile systems is available for you to continue serving your patients during the build-out of your imaging suite or while you are upgrading your systems. Through our Mobile Interim Services, a complete, stand-alone unit is shipped to your facility for the required period of time to provide uninterrupted patient scanning. Our Mobile Diagnostic Imaging Trailers are insulated, self-contained units which enables them to operate adjacent to your facility in hot or cold climates. In order to enable a larger working environment, we offer extra-large super coach trailers.

About the Imaging Trailer

Our mobile imaging trailers are insulated, self-contained units which enables them to operate adjacent to your facility in hot or cold climates. To help blend in with your facility, many of our imaging trailers do not feature logos or emblems on the exterior, and in order to enable a larger working environment, we offer 12ft. x 60ft. large coaches.

Buy, Sell and Build Mobile Systems

We buy, sell and build reconditioned medical imaging equipment including Siemens, GE, Philips, and Canon. Our services include consultation, trade-ins, site planning, installation, de-installation, financing, training, evaluation and more.

Is there something you need that we don't have in our fleet? No worries! MXR Imaging can deliver a custom built mobile solution tailored to your needs.

Complete Turn-Key Rental Service

Our enthusiastic and knowledgeable medical imaging consultants will work with your facility's planning personnel to ensure a smooth transition for your staff and patients. Our experienced, world-class engineering team will be available to you 24/7 for technical support and ensure quick problem diagnosis and repair. We regularly inspect and perform maintenance on all of our imaging equipment to ensure that your unit consistently operates with maximum efficiency and productivity.

About MXR Imaging

MXR Imaging, Inc. is the largest independent distributor of imaging sales and service in the U.S. As an industry leader, we provide a wide variety of new and Platinum Certified Pre-Owned imaging equipment. Additionally, we offer service support, legacy equipment assistance, equipment relocation, mobile rentals, parts, training, and radiology consumable/durable goods to the healthcare market. MXR possesses an extensive imaging portfolio which includes: CT, PET/CT, MRI, Ultrasound, General Radiology Imaging equipment, and PACS.
