

## Solutions For Your Ultrasound Needs

MXR Imaging provides a full breadth of ultrasound systems, parts, probes and services. By offering new and certified pre-owned systems from most manufacturers, MXR can accommodate your exact ultrasound need.

### New Systems

#### SonoScape

**E2**

Fully equipped economy portable Color Doppler ultrasound system integrated with a number of advanced imaging technologies, useful for very basic clinical screenings to in-depth and full exam profiles.

#### wisonic

**Piloter**

Lightweight 13.3" LED Monitor and Touch screen, the Piloter is a compact color doppler system. Built on the HOLO Platform with 64-beam processing, the Piloter archives up to 5000 frames per second.

#### wisonic

**Navi**

Made for today's demanding imaging procedures, this Premium 19" touchscreen system includes customizable software and a built in educational center.

#### SonoScape

**P60**

P60, configured with SonoScape's latest prominent Wis+ platform, is designed to provide more insightful and constructive evidence for diagnosis through authentic detail display, easy-but-effective intelligent analysis and streamlined workflow.

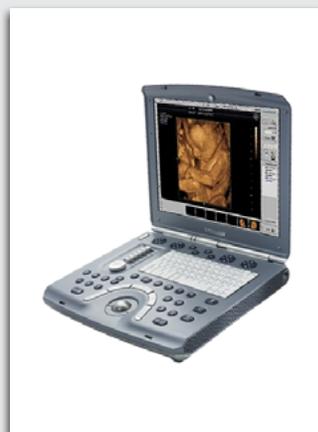

### Platinum Certified Pre-Owned Systems

**GE**

**Philips**

**And More...**

These Certified Pre-owned Ultrasound Systems go through a rigorous evaluation and our ISO certified reconditioning process.

## Probes

### Buy, Repair and Exchange

Do you need to replace or repair an ultrasound transducer? We sell, repair, and exchange probes. Our simple, inexpensive process is saving hospitals time and money, reducing their overall cost of ownership of their transducer inventory. Ask about our probe pool program. Repairs are conducted at our state-of-the-art probe repair facility in Indiana. Just call to receive a loaner probe and RMA number to ship us your broken probe. We'll evaluate your probe and get a quote over to you promptly. Or use our flat-rate pricing to immediately issue a purchase order. Upon approval of your evaluation, we'll repair and ship your probe quickly.

## Portable Depot Repair

### Extending the life of your unit

We are saving many facilities the cost of repair and/or replacement of their portable units. Our Portable Depot Repair facility repairs multiple manufacturers and models. Contact us for a full list of OEM capabilities and instructions on how to send in your portable unit.

Although we provide repair for multi-manufacturers, we can offer flat-rate pricing for SonoSite portables and complimentary probe evaluations for their corresponding SonoSite models. Don't replace your end-of-life SonoSites—we've been extending the life of these units past the date of the manufacturer.

## Technical Support

### 24x7x365 ultrasound support

MXR Imaging technicians are available to you 24x7x365 for those service emergencies that arise in any health care facility. Our ultrasound technical support team provides a pivotal link with customers and is part of the core value we deliver.

## Training

### We create ultrasound experts

Our instructors have been training clinical engineers for over 18 years. MXR Imaging takes pride in assisting biomedical departments to become self-sufficient in ultrasound through formal, classroom hands-on training. Our classes cover multiple manufacturers and models and are taught from a service engineer perspective. Ask about our Empowerment Program.

## Parts and Supplies

### Providing you with everything ultrasound

MXR Imaging sells new and reconditioned parts. We repair to OEM specifications and provide you with a quality, low-cost alternative. When you choose MXR parts and peripherals, you are joining the many facilities that are making a difference in their repair parts spend.

Our vast inventory of ultrasound parts can be shipped same day overnight to your facility for minimal downtime.

We are the source for all of your ultrasound supplies: probe covers, probe storage racks, ultrasound gel, and gel warmers.
