

Veterinary Diagnostic Imaging Equipment and Service

*#1 Veterinary
Imaging Solutions Provider*

**THE
IMAGING**
SOLUTIONS COMPANY™

New and Reconditioned Diagnostic Imaging Equipment and Service

MXR Imaging provides a wide range of Veterinary Imaging Solutions including, CT, MR, Ultrasound systems, Dental X-ray and Digital Radiography systems utilized in small or large animal applications. Standing CT, MR and Tomosynthesis systems are also available specifically for equine practices. We have veterinary clinics, zoos, equine hospitals, veterinary teaching hospitals and other specialized animal facilities among our clients.

Quality Reconditioning

Quality reconditioning that meets or exceeds OEM specifications is what you will get with MXR Imaging. Every system sold undergoes a comprehensive 100 checkpoint recondition process where each component is cleaned, adjusted, repaired or replaced internally and externally. MXR is one of the few independent service providers that has earned the ISO 13485 certification. This is the standard that ensures that you receive a finished product whose quality is second-to-none in the industry at a value the OEMs can't beat.

A Smarter Investment

- MXR Imaging offers a smarter investment choice and service formula for Veterinary Radiology and Oncology. We have the stability and resources of a larger imaging solutions provider, with the flexibility of a smaller independent after-market provider.
- Whether you are adding a new scanner or just looking to upgrade your existing system, MXR will work with you from initial planning through equipment acquisition and successful startup.
- All systems are available for sale as factory certified reconditioned or new. We provide installation, clinical applications training and a full one-year warranty.
- MXR's experienced, world-class engineering team is available to you 24/7 for technical support to ensure quick problem diagnosis and repair. In most cases, we can diagnose the issue remotely.
- Our experienced service engineers will service your system correctly the first time! This will maximize your patient throughput, patient care and revenue potential.
- We maintain an extensive inventory of parts in-house and provide expedited delivery nationwide.
- When you choose MXR as a service partner, you can feel confident that your institution is backed by the stability and extensive resources of an industry leader and nationwide service provider.

Benefits of Veterinary Services

- Our experts will help you identify the best system to meet your needs and help ensure that your system is up and running with minimal disruption to your clinical routines.
- We offer comprehensive, flexible service agreements that cover your maintenance needs for diagnostic imaging systems.
- MXR has a large fleet of mobile diagnostic imaging solutions available for short and long term rental, or outright purchase.
- Our warehouses, located on the east coast, west coast, and mid-west, maintain an extensive inventory of parts in-house and provide expedited delivery nationwide.

About MXR Imaging

MXR - The Imaging Solution Company, is one of the largest independent providers of diagnostic imaging equipment sales, service, training, parts and supplies in the nation. MXR is a full-service medical imaging company, offering an array of services that rival OEM service programs. Throughout its history MXR has marketed x-ray products to the veterinary community. After acquiring Universal Medical Systems in 2017, our product offerings have expanded to include CT, MRI and Equine Specific Systems. Our veterinary product portfolio is diverse in options of new, used and reconditioned equipment for CT, MRI, DR, CR, X-ray and Ultrasound. We are proud to have a presence in every Veterinary Teaching Institution in North America and most major specialty centers.
