

THE
IMAGING
SOLUTIONS COMPANY

PARTNERS IN IMAGING EXCELLENCE

vertex[®]

PLATFORM

Manage and Share Digital Medical Information
All In One Platform

Replace Multiple Applications
With One Easy-To-Use Single-Screen Software

Cutting Edge Features to Integrate and Share Image Data Across the Enterprise

Vertex can acquire any type of image from any source and guide users through importing, sharing, burning, capturing, editing, converting, and storing the data to any destination including VNA, PACS, and popular cloud solutions. Our single-software platform supports multiple individually licensed products with unlimited user licenses and device access control.

Vertex Platform Applications

SHARE

Cloud-brokered medical data sharing

Fast and simple to implement, Vertex SHARE maximizes your cost savings and avoids cloud storage security risks by storing data on your premises. Add Vertex CD to streamline DICOM CD production within the same application.

- Cost-Effective
- No Cloud Storage
- Enterprise Data Sharing
- Flexible Workflow
- IT Friendly
- Total Security
- Simple To SHARE
- Easy To Receive
- Data Streamed on Demand
- Contactless Image Sharing

CD

Automated DICOM CD Production and Importing Software

IT pioneered by Sorna to simplify enterprise imaging. The Vertex family of recording systems targets every production level and budget. Stand Alone or Enterprise configurations and a large array of affordable inkjet or thermal CD / DVD burning solutions to meet the needs of each department within your healthcare facility.

- Easy To Learn and Use
- Import DICOM and Proprietary DISCs
- Attended Operation
- Encryption
- Installation-Free Client Deployment
- DISC-Embedded Viewing
- Integration with Existing Hardware
- PACS Integration and Support
- Automated Workflows

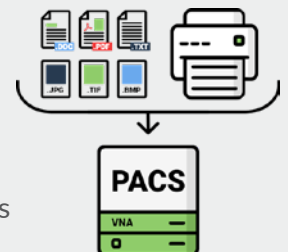

scan

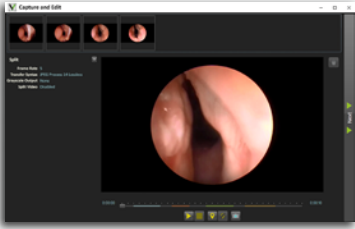

Drag-and-Drop to add all Enterprise Imaging data to DICOM Archive

Customize the workflow of adding paper, film, digital images and documents to existing studies or creating new ones. Affordability, flexibility, and ease-of-use are the hallmarks of Vertex Scan.

- Scan All Papers
- Create Studies From Film
- Manage Visible Light Images
- Add Digital Documents
- Multiple Modes of Operation
- Flexible DICOMization Options
- Create Unique Studies
- Consistent DICOMization
- HIS Friendly
- Client Access Control
- Unlimited Client License

video

Process DICOM Video Files and DVD DISCs

Use Vertex Video to create video snippets and single-frame images from DVD DISCs and video files. Convert it all to DICOM for PACS and VNA storage.

- Process Stored DVDs
- Convert and Store Existing Videos Files
- Flexible Formatting
- Appropriately Sized Video
- Video Processing Profiles
- Consistent DICOMization
- Client Access Control
- HIS Friendly

capture

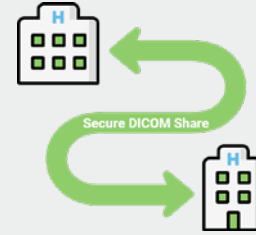

Video Capture Device with Post-Processing Software

Improve your facilities enterprise imaging functionality by capturing video, editing, and converting it to DICOM for archival. With its intelligent sensing functionality, any video source is quickly recognized and connected automatically.

- Fully integrated with Vertex Video
- Hassle Free Setup
- Friendly user interface
- Record from any Source
- Microphone and foot pedal enabled
- Compact and budget friendly
- Increased Productivity

SDS

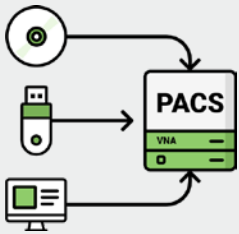

Securely send studies directly to another site

Simply and securely track and send DICOM studies and reports directly from one site to another – with Vertex SDS. Utilizing DICOM TLS, you avoid the setup, and cost associated with traditional VPN or Cloud providers.

- Securely Send DICOM studies
- Receive DICOM Studies
- Always Encrypted
- No Cloud Storage
- Great for Referring Physicians
- Fast Delivery
- Use SDS with Other Destinations
- Flexible Workflow
- Enterprise Data Sharing Option

import

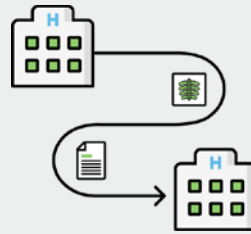

A powerful tool for importing outside exams and data

Versatile, intuitive, and easy-to-use; incoming DICOM and proprietary* data can be seamlessly viewed, reconciled, and imported into PACS. Enable a Vertex Scan license to manage paper, film, visible light, video, and digital documents.

- Import From Any Device
- View Incoming Studies
- Manage Encrypted Data
- Select Relevant Data
- Unlimited client License
- Proprietary Data Support
- Reconcile Flexibly
- Client Access Control

route

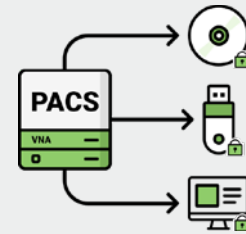

Simple, Robust, and Intelligent routing of DICOM studies

Save time, money, and comply with HIPAA regulations. Customize your workflow utilizing Route's intelligent configurable rules sending to a multitude of destinations.

- Robust routing capabilities
- Send studies to any destination
- Create custom rules
- Encrypt the studies
- Workflow simplifications
- Auto De-Identification
- Track all activity

export

Store to recordable, removable, local and network drives

With its ability to copy to removable media as well as local and network drives, Export is best used for small imaging centers, or as a backup to an automated CD burner. It can also be utilized to anonymize data for teaching purposes.

- Create standards compliant DISCs
- Export studies to removable Media
- PHI Security
- Embedded Viewer
- PHI Security
- Unlimited Client License
- Client Access Control
- One-Click De-Identification
- Track all activity

vertex PLATFORM

Cloud-brokered
medical data sharing

Automated DICOM CD
burners plus CD importing

scan
Add Paper Film, Digital Images
and Documents to PACS

Post-process and convert
existing video files to DICOM

capture
Compact, economical video
recorder with Vertex Video

SDS
Securely send studies using
DICOM TLS with no VPN

Import DICOM and proprietary data
from CDs and removable media

route
Scheduled, Intelligent
routing to any device

Manually send to local CD burner,
removable media, and drives

Sorna & MXR Imaging

Through our Partners in Imaging Excellence Program, MXR aligns its portfolio of services with manufacturing leaders in medical imaging. In partnership with Sorna, a recognized leader in providing innovative products to aid in the management and sharing of digital medical information, our companies go beyond just product and solutions by providing seamless coordination, exceptional service and the earliest access to new products, technologies and upgrades. Our consultative approach to working with our customers is unmatched. Innovation and customer satisfaction are at the core of everything we do.
